***** IMPORTANT *****

Dear SUNY Empire State College Students:

New York State now requires all students enrolled in a SUNY school to show proof of their MMR Immunization.

Any student who is enrolled in 6 or more credits that involve face-to-face instruction must provide proof of vaccination.

The requirement would apply to students who are:

- Registered for Graduate Credit
- Taking 6 or more credits that involve face-to-face instruction in one semester

The requirement does not apply to students who **only** enroll in online courses or students who enroll in a combination of online and face-to-face courses, **as long as the face-to-face course(s) do not add up to more than 6 credits in one semester.**

If you are taking two or more face-to-face courses, please fill out the Student Immunization Form and mail to the address at the bottom of the form.
