

Spring 2022 Remote Learning

January 1, 2022

To Whom It May Concern:

NYSUT's Education & Learning Trust's (ELT) goal is to maintain a safe workplace and encourage practices that protect public health while maintaining our valued reputation in providing the best Professional Learning. Social distancing is paramount; therefore, ELT will deliver our traditional site-based coursework, remotely.

Our Spring course work plan has been approved via our college partners. Per regulations, we will continue to provide top quality, research-based, practical learning and adhere to course guidelines, requirements, and syllabus. Remote learning will be synchronous, with interactions between peers and instructor.

We are proud to be a CTLE provider and confident our participants will have the educational experience they expect in order to increase student achievement and meet certification needs.

Sincerely,

Daniel Kinley
Director
